

¿Qué es RApp Chemistry?

RApp Chemistry es una aplicación desarrollada para plataforma Android que utiliza Realidad Aumentada haciendo enfoque en la química, consiste en la exposición de los elementos de la tabla periódica con el modelo atómico de Niels Bohr en Tercera Dimensión (3D), además de contener la información básica.

GUIA DE USO

Abrir aplicación RApp Chemistry, colocar encima del marcador que quieres utilizar, esperar unos segundos para que aparezca el elemento deseado.

Los marcadores deben ser los tamaños que aparecen el formato Word, de ser más pequeños hay posibilidad que no funcionen como deberían.

SECCION DE SOLUCION DE PROBLEMAS

En caso de que no funcione, desinstale e instale de nuevo la aplicación.

En caso de bajo rendimiento se puede deber al dispositivo donde se ejecuta.

En caso de fallar un marcador, o contacte al soporte técnico al correo creatingware@gmail.com
